

As I work alone and have a backlog of orders, please order far enough in advance to meet your time requirements.

The usual finish for the interior hardware is matte polyurethane, a non-gloss clear finish. Exterior latches are finished with Penetrol, unless otherwise specified by the customer. Other exterior hardware is finished with primer and low gloss black, unless otherwise specified by the customer. All dimensions in this catalog are approximate. Individual pieces will vary slightly, as all pieces are hand forged. All hardware is furnished with re-headed and re-pointed cut nails, which are easy to clinch.

Terms: Please include 75% of the order amount with your order, the balance will be due upon completion of the order. Minimum shipping is \$7.50. Typically orders are shipped UPS, so please include both a mail and UPS address if they differ.

**LATCHES**
